GENERAL CATALOGUE

OF

BULBS and tuberous-rooted plants, **Azaleas**
Camellias, Rhododendrons

HYACINTHS

NARCISSUS

CROCUS

TULIPS

ETC.

HARDY ORCHIDS

LILIES

SEEDS

IRIS

ETC.

LOUIS VAN HOUTTE PÈRE, will at all times be pleased to enter into correspondence with Gentlemen travelling or residing abroad, with a view of making arrangements for the introduction of **NEW and RARE Plants, Seeds and Bulbs.**

TO VISITORS.

Our establishment, so well known as the **LARGEST** and most **EXTENSIVE** in the world, can be reached within **ONE** hour by Rail from Antwerp, Ostende or Brussels, and no one should ever miss the opportunity of inspecting one of the largest, most varied and particularly well grown stock of plants.

On presenting this Catalogue we beg to thank our numerous friends for their kind support, and by endeavouring to treat our clients most liberally, we trust to receive the continuance of their esteemed patronage.

BRITISH ORDERS.

Having made advantageous arrangements with the various Steam Boat Companies for the transmission of goods at **SPECIAL LOW RATES**, matted Baskets or Hampers of an ordinary size, can now be sent direct from **GHENT**, to all the principal ports.

From the various ports to the final destinations, the re-expedition is made at the cheapest rate and by the shortest route.

SPECIAL RATE FOR FREIGHT TO LONDON ONLY

including all charges, to London Railway terminus :

1	Box or Basket weighing	12 to	50	lbs.	.	.	2/6
1	—	—	50	»	100	»	3/6
1	—	—	100	»	150	»	4/6

It must be distinctly understood that the above rates do not include the cost of the materials used in packing ; these are however, in all instances, charged at cost price. Small packages weighing under 3 lbs, 7 lbs and 11 lbs can be sent by Parcel Post at the rate of 1/3, 1/8 and 2/2 respectively, to Great Britain and Ireland.

NORTH AMERICAN AND CANADIAN ORDERS.

The steamers of the Red Star Line run from Antwerp to New York every week, and to Philadelphia twice a month, taking goods at **SPECIAL RATES** ; For Canada, goods can also be sent via Liverpool by the Beaver Line to Montreal.

All payments to be made direct to the Firm, either by Cheque, Postal Order or Post Office Order, small amounts may be remitted in Stamps.

THE HYACINTH

Culture of Hyacinths

1. Outdoor. — They should be planted in October or November in a light, sandy soil. As soon as frost sets in, the bed should be covered with some litter, which should be removed when hard frost is no more to be expected. When in full vegetation and rain is scarce, they require watering.

2. Forcing in pots. — Plant in pots or vases of any size and shape, number of bulbs according to the size of the pot or vase. If the bulbs are potted singly, it should be done in pots of 5 inches of height and diameter. They may be potted from September up to November, but September is always preferable to succeed well, in some good sandy soil, deep enough to be covered, so that the top of the bulb is level with the surface of the pot.

Then, they are plunged outdoors and covered a few inches high with some mould, and left here for six or eight weeks sheltered with some litter against frost, by that time, they will be well enough rooted which is indispensable for a fine growth, and are then ready for forcing. This should be done in a place, which is gradually heated and well-exposed to light. After being rooted, they should never be allowed to get dry, and to prevent this, it is advisable, at least in dwelling rooms, to place the pot on a saucer or a little pan, to receive the superabundant water till the soil is able to imbibe it.

3. In glasses. — Rain water is preferable and a little charcoal should be put into the water. Care must be taken to fill up the glasses as the water diminishes, which must be of about the same temperature as that which it is going to replace. The bulbs should be supported by means of a Hyacinth support, made of wire and sold with the glasses, in order to keep the plant upright, when its flower and leaves are too heavy.

4. In moss. — They may also be grown in pots or vases filled with moss, which should be constantly kept wet. If grown in small pots, they are, when flowering, very handy for arranging in flower baskets, because the roots and moss form a firm ball, in which the roots are not so easily broken, as if bulbs grown in mould, are used for the same purpose.

The two first modes of culture are also applied to other bulbs, such as *Tulips*, *Crocus*, *Narcissus*, *Scillas*, *Iris anglica* and *hispanica*.

ANEMONES AND RANUNCULUS

Anemones require a rich soil; leaf-mould and well-rotten dung are the most suitable as manure and should be well mixed with the soil. They are planted 2 inches deep and at a distance of 5 to 6 inches. If the summer be dry, they require watering in the evening. The best time for planting is from February to April, but they may be had at nearly any season.

The Ranunculus are grown in the same way as the Anemones, but prefer a damp place where they are not too much exposed to the sun, and require plenty of water in dry weather.

COLLECTIONS OF BULBS

For Conservatory Decoration during winter in glasses and pots

These collections are carefully selected from choice varieties and picked bulbs.

Nº I. CONTAINING 51 BULBS — 6/.

- | | |
|------------------------------|--|
| 12 Hyacinths in 6 varieties. | 15 Crocus in 3 varieties. |
| 6 White Roman Hyacinths. | 6 Polyanthus Narcissus in 6 varieties. |
| 12 Tulips in 4 varieties. | |

Nº II. CONTAINING 110 BULBS — 12/.

- | | |
|-------------------------------|--|
| 25 Hyacinths in 13 varieties. | 25 Crocus in 5 varieties. |
| 6 White Roman Hyacinths. | 6 Polyanthus Narcissus in 6 varieties. |
| 36 Tulips in 12 varieties. | 12 Scilla sibirica |

Nº III. CONTAINING 163 BULBS — 16/.

- | | |
|-------------------------------|--|
| 36 Hyacinths in 12 varieties. | 40 Crocus in 8 varieties |
| 12 White Roman Hyacinths. | 12 Polyanthus Narcissus in 12 varieties. |
| 51 Tulips in 17 varieties. | 12 Scilla sibirica. |

Nº IV. CONTAINING 232 BULBS — 25/.

- | | |
|-------------------------------|--|
| 50 Hyacinths in 10 varieties. | 24 Snowdrops in 2 varieties. |
| 12 White Roman Hyacinths. | 12 Polyanthus Narcissus in 12 varieties. |
| 60 Tulips in 20 varieties. | 24 Scilla sibirica. |
| 50 Crocus in 10 varieties. | |

Nº V. CONTAINING 447 BULBS — 45/

- | | |
|-------------------------------|--|
| 75 Hyacinths in 10 varieties. | 48 Snowdrops in 12 varieties. |
| 24 White Roman Hyacinths. | 18 Jonquils in 3 varieties. |
| 102 Tulips in 34 varieties | 40 Polyanthus Narcissus in 20 varieties. |
| 80 Crocus in 16 varieties. | 48 Scilla sibirica. |
| 12 Cyclamen in 6 varieties. | |

For Outdoor Decoration in spring

Nº VI. CONTAINING 500 BULBS AND ROOTS — 25/

- | | |
|--|--|
| 12 Hyacinths single and double, mixed. | 6 Iris Kämpferi, mixed. |
| 12 Tulips single early, mixed. | 50 Ixia, mixed. |
| 12 — double early, mixed. | 6 Lilium in 6 varieties. |
| 25 Anemones double, mixed. | 12 Narcissus single and double, mixed. |
| 25 — single, mixed. | 50 Asiatic Ranunculus mixed. |
| 50 Crocus, mixed. | 50 Persian Ranunculus, mixed |
| 16 Erythronium in 4 varieties. | 50 Turban Ranunculus, mixed. |
| 50 Gladiolus nanus in 10 varieties. | 12 Scilla sibirica. |
| 12 Iris germanica, mixed. | 50 Sparaxis, mixed. |

Nº VII. CONTAINING 1010 BULBS AND ROOTS — 42/.

- | | |
|--|--|
| 25 Hyacinths single and double, mixed. | 25 Iris germanica, mixed. |
| 25 Tulips single early, mixed. | 12 — Kämpferi, mixed. |
| 25 — double early, mixed. | 100 Ixia, mixed. |
| 50 Anemones double, mixed. | 12 Lilium in 12 varieties. |
| 50 — single, mixed. | 25 Narcissus single and double, mixed. |
| 50 Babiana, mixed. | 100 Asiatic Ranunculus, mixed. |
| 12 Camassia esculenta atrocerulea. | 100 Persian Ranunculus, mixed. |
| 100 Crocus, mixed. | 100 Turban Ranunculus, mixed. |
| 24 Erythronium in 4 varieties. | 36 Scilla sibirica. |
| 50 Gladiolus nanus in 10 varieties. | 100 Sparaxis, mixed. |

N^o VIII. CONTAINING 2000 BULBS AND ROOTS — 70/.

26	Hyacinths single and double in 13 variet.	100	Gladiolus nanus in 10 varieties.
50	— — — mixed.	25	Iris germanica, mixed.
50	Tulips single early in 10 varieties.	12	-- Kämpferi, mixed.
50	— double early in 10 varieties.	100	Ixia, mixed.
100	— — and single, mixed.	12	Lilium in 12 varieties.
100	Anemones double, mixed.	100	Asiatic Ranunculus, mixed.
100	single, mixed.	200	Persian Ranunculus, mixed.
100	Babiana, mixed.	200	Turban Ranunculus, mixed.
25	Camassia esculenta atrocœrulea.	50	Narcissus single and double, mixed
100	Crocus in 10 varieties.	100	Scilla sibirica.
200	— mixed.	100	Sparaxis, mixed.
100	Erythronium in 4 varieties.		

Smaller collections 5/0, 10/6 and 15/0.

WHITE ROMAN HYACINTHS

If forced early, they may be had in bloom in November; the flowers are very sweet-scented and useful for the arrangement of bouquets, etc.

Per doz. : 2/. — Per 100 : 12/.

General choice collection of Single flowered Hyacinths

Named sorts, all suitable for forcing
those marked with an asterisk (*) are the earliest.

The sorts followed by the letter « L » have invariably the largest bulbs, which however must not be taken as a criterion to produce better flowers than those marked « S », producing smaller sized bulbs.

N. B. — Not less than 25 of those varieties offered by the hundred, will be charged at the hundred rate, 6 at doz. rate.

In ordering, it is sufficient to indicate the numbers of the varieties required.

AMARYLLIS

The culture of the Amaryllis has been for a number of years, and continues still to be, one of the leading features of our Establishment; from year to year, no efforts have been spared to bring to greater perfection this beautiful tribe of plants. To effect this, the choicest sorts have been selected from all existing collections, so that by careful and judicious hybridisation, a very superior strain has been obtained. We are now offering strong bulbs of our newest varieties, which for quality are not to be surpassed, if equalled. — Awarded Gold Medals and First Prizes at the International Exhibitions in Antwerp, Ghent, Brussels, Liege, Lille, etc.

Fine mixed flowering bulbs not yet flowered (Seedlings):

The six: 10/6. — The twelve: 18/. — The twenty five: 32/. — Finest named hybrids, our selection: 3/6, 5/, 7/6 to 42/ each.

- 4536 **Amabilis.**
Stands light lilac, falls velvety purple white veined.
- 4537 **Amélie.**
Stands bluish violet, falls velvety purple.
- 4538 **Antiope.**
Stands fine metallic blue, falls light purple netted with pale straw yellow.
- 4539 **Apollon.**
Stands sky blue, falls light purple reticulated with yellowish white.
- 4540 **Arlequin malinois.**
Stands sky blue striped with purple, falls deep violet reticulated with white.
- 4542 **Augustina.**
Stands bronzy copper red, falls yellow netted with brownish red and shaded with black.
- 4543 **Augustus.**
Stands azure blue, falls deep blue, white in the middle.
- 4544 **Aurea.**
Stands azure blue, falls deep blue, white in the middle.
- 4550 **Bariensis**
Stands and falls white bordered lilac.
- 4551 **Belisaire.**
Stands pure white, falls deep violet purple reticulated with white.
- 4552 **Bossnet.**
Stands bronze, falls purplish violet with white veins.
- 4553 **Britannicus.**
Stands bluish violet with bronze shade, falls rosy violet, reticulated with white.
- 4557 **Calypso.**
Stands milky white, falls white wholly reticulated with violet blue.
- 4558 **Caméléon.**
Stands indigo blue flaked with purple, falls pale violet netted with white.
- 4559 **Céleste.**
Tender satiny blue.
- 4560 **Cerbère.**
Stands straw yellow, falls purplish amaranth shaded black and netted with creamy white.
- 4562 **Cléopâtre.**
Stands chamois yellow, falls deep velvety crimson almost black reticulated with white.
- 4563 **Comte de Saint-Clair.**
Stands pure white shaded with violet, falls purplish violet netted with white.
- 4565 **Cornélie.**
Stands lilac, falls velvety blackish purple netted with white.
- 4571 **Duke of York.**
Satiny bluish purple.
- 4574 **Edina.**
Stands light satiny blue, falls violet edged with pale blue and reticulated with white.
- 4576 **Fénélon.**
Stands copper red marbled with bronze on the tips, falls purple netted with golden yellow.
- 4577 **Florentine.**
Stands pure white, falls milky white, yellow in the middle.
- 4580 **Gédéon.**
Stands bronzy copper red, falls velvety dark purple netted with straw yellow.
- 4582 **Hericart de Thury.**
Stands bronzy copper red, falls velvety purple amaranth netted with white.
- 4583 **Hortense.**
Stands pale yellow, falls milky white veined with brown.
- 4584 **Hugh Block.**
Stands copper red with metallic reflex, falls bluish lilac reticulated with white.
- 4587 **Ignace.**
Stands light blue, falls purple, strongly reticulated with white.
- 4589 **Jordaens.**
Stands reddish lilac, falls same colour reticulated with white.
- 4590 **Judith.**
Stands nankeen yellow, falls crimson and maroon reticulated with straw yellow.
- 4591 **Jules César.**
Stands bright yellow, falls velvety blackish purple, white in the middle.
- 4592 **Juliette.**
Stands satiny white shaded with violet, falls indigo blue with white reflex.
- 4598 **Lady Stanhope.**
Stands light blue, falls violet purple.
- 4599 **Lelieur.**
Stands lively yellow, falls bright yellow striped with velvety maroon.
- 4600 **Liabaud.**
Stands golden yellow, falls velvety crimson reticulated with yellow.
- 4601 **Lord Gray.**
Stands bronzy copper red, falls nankeen yellow shaded with violet.
- 4606 **Mad. Chereau.**
Milky white edged with sky blue.
- 4607 **Mad. Sonntag.**
Stands lavender blue, falls violet pansy netted with white.
- 4608 **Maguet.**
Stands canary yellow, falls red shaded with black and netted with yellow in the middle.
- 4609 **Maria Theresia.**
Stands pale yellow, falls amaranth purple, netted with yellow.
- 4610 **Memnon.**
Stands bronzy copper red, falls light red, netted with white.
- 4611 **Minerve.**
Stands bronzy violet, falls velvety violet purple with white veins.
- 4612 **Minos.**
Stands yellow, falls crimson reticulated with white.
- 4613 **Muta.**
Stands lilac with light purple reflex, falls satiny purple.
- 4619 **Orphée.**
Stands pure yellow, falls striped with maroon on white ground.

- 4621 **Pallida speciosa.**
Stands violet red, falls purple.
- 4622 **Panrace.**
Stands golden yellow, falls veined with white and edged with yellow.
- 4623 **Pharaon.**
Stands bluish lilac, falls pale violet, white in the middle.
- 4624 **Phidias.**
Stands bronzy copper red, falls reddish maroon, veined with yellow.
- 4625 **Pluton.**
Stands bronzy violet, falls bluish lilac.
- 4626 **Poitau.**
Stands satiny white, falls blackish purple reticulated with white.
- 4632 **Raphaël.**
Stands pale nankeen yellow, falls deep violet purple with white veins.
- 4633 **Rebecca.**
Stands chamois yellow, falls velvety crimson, netted with white.
- 4634 **Rolandiana.**
Stands pure white, falls indigo blue reticulated with white.
- 4638 **Sambucina major.**
Stands lilac, falls purple, reticulated with yellow.
- 4639 **Samson.**
Stands golden yellow, falls velvety crimson, reticulated with white.
- 4640 **Sapho.**
Stands azure blue, falls deep velvety purple, netted with yellow.
- 4641 **Spectabilis.**
Stands velvety purple, shaded darker.
- 4642 **Sultan.**
Stands nankeen yellow, falls crimson reticulated with white.
- 4643 **Sylvie.**
Stands pale lilac, veined with blue, falls velvety deep blue, netted with white.
- 4649 **Teresita.**
Stands pale lilac, falls velvety purple veined with white.
- 4651 **Variegata major.**
Stands golden yellow, falls purplish bronze.
- 4652 **Vénus.**
Stands copper red, falls white reticulated with velvety purplish violet.
- 4653 **Virgile.**
Bronzy red, falls reddish lilac, veined with straw yellow.
- 4657 **Walter Scott.**
Stands pale yellow with bronze reflex, falls white, reticulated with velvety purplish maroon.

IRIS KÄMPFERI

These flowers, open in June and July, are of enormous size, and of the handsomest shades of colors imaginable.

We can specially recommend our new hybrids, they are very hardy and easy to grow.

	Velvety purple, small yellow blotch in the middle of each of the six divisions.	

IXIAS

Large flowered choice varieties

To be grown in pots in a greenhouse near the glass or in frames, with a good ventilation except during frosty weather. — They flower in June and are well adapted for forcing; 4 or 5 bulbs planted in a pot, in the same manner as Crocuses, give a fine show, and as their flowering season follows that of the Hyacinths and Tulips, they are very useful for indoor decoration.

	Dwarf cream colour, orange trumpet.						

HARDY ORCHIDS

Our collection of these beautiful hardy and half hardy plants comprise varieties, which can be cultivated in almost any garden. They require more or less a shady position and must whilst growing never be allowed to suffer from drought. Amongst the following will be found some of the prettiest North American as also South European species, and our collection is one of the most complete brought together. REWARDED FIRST PRIZES AND SILVER MEDALS AT VARIOUS INTERNATIONAL EXHIBITIONS.

12 distinct hardy varieties	5 0	7 6	and 10 6

A charming species of northern region; dark rose blotched with red dots and rose stripes on the lip, in May.		
4887 <i>Cypripedium acaule</i> (<i>humble</i>)	1 3	12 0
Pale brown, lip purple, veined with darker purple, in May.		
4888 — <i>arietinum</i>	1 3	12 0
The pretty Alpine Lady's Slipper, very rare; white, lip striped with carmine on the edges.		
4891 — <i>calceolus</i>	0 6	4 0
Brownish, with yellowish lip like a slipper.		
4892 — <i>candidum</i>	1 9	
4893 — <i>macranthum</i>	2 6	
4894 — <i>montanum</i>	1 9	
4895 — <i>parviflorum</i>	1 3	
4896 — <i>pubescens</i>	1 0	
A magnificent species, pale yellow, lined with reddish brown, lip like a slipper.		
4899 — <i>spectabile</i>	1 0	10 6
Large numerous white flowers, with purplish cochineal lip, very beautiful, in May.		
Our <i>Cypripediums</i> are strong, very healthy and imported from their native country.		
4911 <i>Goodyera Menziesii</i>	1 3	12 0
Leaves long, dark green, centre veins bordered with pure white, in July-August.		
4912 — <i>pubescens</i>	0 9	8 0
Central and lateral veins silvery white, with a network of same colour, upon a glaucous green ground, in July-August.		
4913 — <i>repens</i>	0 6	4 0
The prettiest of the three species; greyish veins, except the central which is greenish; these veins ramify and cover all the leaves with a		

Each Doz.
s. d. s. d.
greenish network upon a dark green ground. Flowering in July-August.

These three fine species are rarely seen in their great beauty, which must be attributed to a misunderstanding in their culture. Instead of placing them in a temperate house, we keep them winter and summer alike in pots plunged in a cold, but protected frame, and cover them more against, the wet than the cold. During spring they are shaded and watered freely while in their growing period. Mix three parts of well-sifted leafmould with one part sand and one part sphagnum moss finely chopped, wherein they thrive well, threatened in this way they will vie with the *Anoctochilus* of which they have the advantage that they do not claim such extraordinary attention.

4916 <i>Goodyera Gymnadenia al-bida</i> (<i>Peristylus</i>)	0 6	4 0
Whitish flower, in June.		
4918 — <i>conopsea</i> (<i>Orchis</i>)	0 6	4 0
Compact spike of numerous, rose, sweet-scented flowers, in June.		
4921 — <i>odoratissima</i> (")	0 6	4 0
Compact spike of rose flowers, Vanilla-scented, in June.		
4924 <i>Habenaria ciliaris</i> (")	1 3	
4926 — <i>fimbriata</i> (")	1 3	
4933 — <i>spectabilis</i> (")	1 3	
Pale violet, with white lip, shaded with tender violet, in May.		
4941 <i>Liparis lilifolia</i>	1 3	
Brownish purple.		
4937 <i>Listera ovata</i> (<i>Neottia</i>)	0 3	2 0
A tall growing Orchid of our woods, with green flowers, in May.		
4942 <i>Ophrys apifera</i>	0 6	4 0
Flowers resembling bees, pale green, with blackish brown lip in May-June.		
4944 — <i>arachnites</i>	0 6	4 0
Greenish flowers, slightly, shaded with pale brown, and with a velvety reddish brown lip in May-June.		
4945 — <i>aranifera</i>	0 6	4 0
Flowers resembling spiders, greenish, with velvety brown lip in May-June.

BULBOUS AND TUBEROUS-ROOTED PLANTS

which can be supplied from October to March.

- | | Each | Doz. | 100 |
|--|-------|--------|----------|
| | s. d. | s. d. | s. d. |
| 3345 <i>Amorphophallus Rivieri</i> | 1 | 0 to 2 | 6 |
| A superb Palm-like Aroid, of which the scape or flower stem is marbled with dull rose upon a dark green ground and surmounted by a long, blood red spadix, partly rolled up in a long, rose-green spotted spathe. The whole of this apparatus measures more than four feet in length, half of which is occupied by the spadix; surrounded with its spathe. Afterwards, the foliage rises in shape of a most elegantly divided parasol of which the speckling is very ornamental. — This plant is easily cultivated, like Dahlias, and its tubers, are lifted at the same time as theirs. | | | |
| 3395 <i>Arum guttatum</i> (<i>Saurumatum</i>) <i>strong</i> | 0 | 3 | 2 6 15 0 |
| Spath large, two feet in length horn-shaped, coloured at the base with crimson and spotted with crimson on the yellowish surface; the spadix is very long, of a glaucous green with rose shine, flowers in May. | | | |
| 3477 <i>Bravoa geminiflora</i> | 0 | 9 | 6 6 |
| A very fine plant, 2 feet high; flower stalk straight garnished with numerous vermilion flowers the tube of which is coral red and rose at its orifice, in July. | | | |
| Calla, see <i>Richardia</i> . | | | |
| 3552 <i>Chlidanthus fragans</i> | 0 | 6 | 4 0 |
| Flowers yellow, emitting a sweet odour, in June. | | | |
| 3555 <i>Coburgia incarnata</i> | 1 | 0 | |
| In July. | | | |
| 3561 <i>Commelina cœlestis</i> | 0 | 2 | 1 3 8 0 |

RHODODENDRON CAUCASICUM GRANDIFLORUM

Very dwarf and free-flowering varieties, nearly every branch bearing a truss of flowers beautiful satiny rose, when opening gradually diminishing into light pink.

They are quite hardy, well-adapted for planting in clumps, and as their flowering time is earlier than that of the other hardy variety, they are also well-suited for pot culture; for this purpose pot them in October, place in greenhouse and without any artificial aid they will flower abundantly from February to April.

<i>Salmon yellow.</i>			
— — mixture of fine varieties	"	1 6	
— — dwarf, Espoir	"	2 0	
— — Le Favori	"	2 0	
<i>A new and vigorous variety producing numerous and very large, rosy flowers.</i>			
— — Hermine	"	2 0	
<i>New variety with pure white flowers excellent for bouquets.</i>			
<i>The several varieties of Tree Carnations if kept in pots in a greenhouse, flower throughout the winter.</i>			
— — Genois	"	1 6	
<i>A novelty. This new breed is remarkable for its hardiness and specially for its free-flowering qualities, for it is said to have given 240 flowers and buds on a single plant.</i>			
— — Lyonnais	"	1 6	
<i>An improved breed very compact, vigorous and stiff, flowers of all shades very large and double, very free flowering and excellent for groups.</i>			

Carnations <i>Tree, Madem. Guillaud</i>	100 seeds	2 0
— — <i>Marguerite</i>	"	1 0
A novelty of extraordinary precocity, flowering if sown in February, about July until winter. Though the flowers are large, they never split, very sweet-scented which is not very common in <i>Tree Carnations</i> . — Petals nicely fringed and the colours are simply splendid, from brilliant red and pink to pure white. — Growing very vigorous and dwarf, floral stems supporting themselves.		
— — <i>Enfant de Nice</i>	"	2 0
— <i>Grenadin</i>	"	1 0
A dwarf variety, very floriferous and very early, with poppy red flowers.		
— — <i>Snow flake</i>	"	1 0
A novelty with pure white flowers and very free flowering.		
— <i>Mignardise double perfection</i>	"	1 0
The flowers of this new race are supported on stiff vigorous stalks double, large, of good shape and never split.		
— — <i>perpetual flowering hybrids</i>	"	2 0
Centaurea <i>candidissima</i>	<i>per packet</i>	0 6
— <i>Cyanus flore pleno (Cornflower)</i>	"	0 6
— <i>Margaritacea</i>	"	1 0
Cinerarias <i>English hybrids</i>	" 1 6 and	2 6
— — — <i>dwarf in fine mixture.</i>	" 1 6 "	2 6
— — — <i>Tom Pouce</i>	"	2 0
— — — <i>double</i>	"	2 0
Magnificent mixture of <i>double</i> varieties.		
Coleus <i>hybrids</i>	"	1 6
— <i>fimbriated and lacinated</i>	"	2 0
These differ from the old varieties by their more deeply cut leaves, largely fimbriated and fringed, very ornamental.		
Cyclamen <i>persicum giganteum universum, mixed.</i>	"	1 6
With very large flowers on long and stiff stems, very superior to the old varieties.		
Dianthus <i>barbatus (Sweet-William)</i>	"	0 6
— — <i>Dunnetti flore pleno</i>	"	0 6
Flowers very double, of a velvety crimson.		
— <i>sinensis flore pleno</i>	"	0 3
Indian Pink with double flowers of all shades in fine mixture		
— — <i>imperialis flore pleno</i>	"	0 3
— — <i>Heddewigi</i>	"	0 3
Varieties in superb mixture.		
— — — <i>diadematus flore pleno</i>	"	0 6
Fine bushy flowering varieties, similar to the old <i>Carnations</i> .		
— — — <i>hybridus flore pleno</i>	"	0 6
— — — <i>laciniatus</i>	"	0 3
Varieties in superb mixture.		
— — — — <i>flore pleno</i>	"	0 6
Eccremocarpus <i>scaber</i>	"	0 6
A fine biennial climbing plant: trusses of brilliant orange red flowers.		
Everlasting large flowers (<i>Helichrysum monstrosum flore pleno</i>).		
The flowers may be employed for Winter Bouquets, for which purpose they are in great demand upon the Continent; sow in heat and transplant to open borders in May; for winter use, cut the flowers when upon the point of opening.		
Assortment of 6 separate varieties	<i>the collection</i>	2 0
Mixed varieties	<i>per packet</i>	0 6
— dwarf large flowers (<i>Helichrysum monstrem nanum flore pleno</i>).		
Assortment of 6 separate varieties	<i>the collection</i>	2 0
Mixed varieties	<i>per packet</i>	0 6
Gaillardia, finest hybrids	"	0 6
These varieties cannot be too highly recommended as ornamental plants, on account of the continuancy of blooming, in addition to their being so serviceable for cut flowers.		
Gunnera <i>scabra</i>	"	0 6
This is a grand and most ornamental plant; a single specimen, planted in an isolated position, on a lawn, soon measures 30 feet in circumference.		
Hollyhocks , English varieties (<i>Althæa rosea flore pleno</i>).		
Assortment of 10 separate varieties	<i>the collection</i>	4 0
Mixed varieties	<i>per packet</i>	0 6 and 1 0
Humulus japonicus folliis variegatis.	"	1 0

Lobelia cardinalis hybrida	<i>per packet</i>	1 0
— — <i>Queen Victoria</i>	"	1 0
A variety with bright deep red flowers; firm and high stems, which are red, as well as the foliage.		
— <i>erinoides alba</i>	"	0 3
— — <i>Royal Purple</i>	"	0 6
Beautiful novelty with violet purple flowers with pure white dots, without any blue which gives an admirable effect, charming for borders.		
— — <i>speciosa (Crystal Palace)</i>	"	0 6
— — — <i>compacta</i>	"	0 6
— — — — <i>Godelse</i>	"	1 0
— — — — <i>King of Lobelias</i>	"	1 0
— — — — <i>gloriosa</i>	"	1 0
Myosotis Alpestris robusta grandiflora Victoria (Forget-me-not)	"	0 6
— <i>palustris semperflorens</i>	"	0 6
A new Forget-me-not with numerous fine sky blue flowers, larger than the preceding sorts, appearing from May to November.		
Nemesia strumosa Sultoni	"	1 6
A very pretty useful annual, its colours ranging from white to orange, crimson and purple. Flowers from May to October.		
Pansies Show varieties (Viola tricolor)		
Assortment of 6 separate varieties	<i>the collection</i>	1 6
— English (<i>Viola tricolor maxima</i>)	<i>per packet</i>	0 6 and 1 0
— — Fancy (<i>Viola tricolor maxima striata</i>)	"	0 6 and 1 0
Mixture of striped varieties.		
— Cassier	"	0 6 and 1 0
— Odier (<i>Vio'a tricolor maxima maculata</i>)	"	0 6 and 1 0
— Trimardeau	"	0 6 and 1 0
Magnificent Pansies with large maculated flowers.		
— Bugnot	"	0 6 and 1 0
Charming novelty with large well made flowers, ornated with very large blotches.		
— Lord Beaconsfield	"	0 6 and 1 0
Very fine, flowers dark purple veering to blue, of very good effect.		
Pentstemon gentianoides	"	0 6
Seedling varieties in fine mixture.		
— — <i>grandiflorus</i>	"	1 0
New variety with large and open flowers, from 1 1/2-2 inches in diameter consisting of rosy white lilac, scarlet and deep purple colours, flowering from July until frost sets in.		
Poppies, double Paony-flowered (Papaver somniferum pæoniæflorum)		
Assortment of 8 separate varieties	<i>the collection</i>	1 6
Mixed varieties	<i>per packet</i>	0 6
Primula auricula	<i>100 seeds</i>	0 6
Fine varieties,		
— — <i>var. tiégeoises</i>	"	1 0
First class varieties.		
— <i>japonica</i>	"	0 6
Fine mixed varieties. Sow in October.		
— <i>obconica</i>	"	1 0
— <i>veris</i>	"	0 6
Gathered from our rich well assorted collection,		
— <i>sinensis fimbriata (Fringed Chinese Primrose)</i> :		
— — — <i>alba</i>	"	1 6 and 2 6
— — — — <i>plena</i>	"	2 0
— — — — <i>coccinea flore pleno</i>	"	2 6
— — — — <i>kermesina</i>	"	1 6 and 2 6
— — — — <i>splendens flore pleno</i>	"	2 6
— — — — <i>punctata elegantissima</i>	"	2 0
— — — — <i>Vesuvius, lively red</i>	"	2 6
— — — — <i>of first class, mixed varieties</i>	"	2 6 and 5 0

Containing exclusively those that we intend to sow ourselves. They are gathered from the most splendid varieties. The flowers are very large, of the most perfect shape, single, double and slightly fringed. The magenta red, the white, the tender incarnate and striped ones are abundant.

Saintpaula ionantha	per packet	2 0
This is a charming little gesneriaceous plant, almost constantly in bloom and produces its beautiful blue flowers in clusters from 5 to 7, supported on tender little stems about 4 to 5 inches in height. Most valuable novelty for Greenhouses.		
Snape dragon, large flowering (<i>Antirrhinum majus</i>).		
These are of our own saving from the best varieties of last season, and it is impossible to find a more distinct selection; the greater part of them are beautifully striped.		
Assortment of 8 separate varieties	the collection	2 0
Mixed varieties	per packet	0 6
— large flowering dwarf (<i>Antirrhinum majus nanum</i>).		
Assortment of 6 separate varieties	the collection	1 6
Mixed varieties	per packet	0 6
Stock autumn or Winter (<i>Cheiranthus autumnalis</i>).		
Compact variety, pure white and double flowers, very early flowering and suitable for pots.		
Assortment of 8 separate varieties	the collection	2 6
Mixed varieties	per packet	0 6
— Cockade Winter (<i>Cheiranthus incanus fenestralis</i>).		
Of a pyramidal habit 12-15 inches high, very remarkable for its long central well furnished stem, usually cultivated in pots, richly flowering in spring.		
Assortment of 8 varieties	the collection	2 6
Mixed varieties	per packet	0 6
Sweet Peas (<i>Lathyrus odoratus</i>). <i>Eckford's new hybrids</i> .		
Assortment of 6 separate varieties	the collection	2 6
Mixed varieties	per packet	0 6
Wallflower Easter Queen		1 6
Large flowering, single, a decided improvement upon our old single Wall-flowers, of bushy dwarf habit, and different shades of salmon colour.		
— single (<i>Cheiranthus Cheiri</i>)		
Assortment of 6 separate varieties	the collection	1 0
Mixed varieties	per packet	0 6
— Tall tree, very double (<i>Cheiranthus Cheiri arborescens flore pleno</i>).		
This will include a rich variety of colours. Very distinct from the old type, compact in growth, having dense flower spikes and large handsome petals; extremely ornamental for garden decoration during the spring and summer months.		
Assortment of 6 varieties	the collection	2 6
Mixed varieties	per packet	0 6
— Dwarf, very double (<i>Cheiranthus Cheiri nana flore pleno</i>).		
Assortment of 6 varieties	the collection	2 6
Mixed varieties	per packet	0 6
Viola cornuta		0 6
Blue. Very striking when mixed with the <i>V. cornuta alba</i> .		
— — alba		0 6
White mixed with the above form pretty borders of charming contrast.
